LAS VEGAS

CITY GUIDE

CLASSIC PICK OF THE WEEK

Citizens Kitchen and Bar

Why? It's an amped-up 24-hour diner.

Light Group is definitely infusing the south end of the strip with its own brand of cool as it helps rebrand Mandalay Bay. It has already refreshed the edgy, Soviet-themed Red 8 restaurant and plans to transform the hotel into a Vegas version of Miami's Delano hotel and to open an Asian eatery, as well as a day club and Cirque du Soleil-inspired nightclub. Within the past week, it has continued the resort's transformation by opening a 24-hour, indoor-outdoor café. The group has already enlisted its corporate executive chef, Brian Massie, to serve up elevated American fare. Notable selections include, specialty omelets and hashes, baked meatballs, lobster rolls, fish tacos, brick chicken, bread pudding, root beer floats and the like.
